

# ENVIRONMENTAL, HEALTH & SAFETY

---

## **YOUR COMPETITIVE ADVANTAGE**

Environmental, Health and Safety (EHS) landscapes are constantly changing as new legislation and guidelines emerge, and industries are expected to adapt quickly to comply. This presents our clients with problems which often intersect at financial costs and social responsibility.

Our mission at Altamira is to provide comprehensive EHS solutions to creatively help our clients achieve responsible environmental stewardship, ensure the health of employees and their businesses and foster a safety culture.

Our industry leading staff have experience at both the federal and local levels to navigate our clients through traditional and complex compliance problems. We support clients across a broad range of industries and geographies.

## **SUPPORTING CLIENTS AMID EVOLVING REGULATORY REQUIREMENTS**

### **OUR SERVICES:**

- Air Quality Compliance & Permitting
- Due Diligence
- Environmental Compliance
- Environmental Site Assessments
- Spill Prevention, Control & Countermeasures (SPCC)
- Stormwater & Wastewater
- Waste Management

# AIR QUALITY

Air quality regulations are among the most complex environmental regulations. With increasing focus on emissions and mitigation techniques for methane and volatile organic compounds (VOCs), maintaining compliance is becoming more challenging.

Altamira's experienced professionals can help you maintain a proactive air compliance status. Our experts, well-versed in federal and state regulations, support clients in routine compliance and in planning and permitting capital projects. This proactive approach benefits clients by managing permitting lead times, reducing long-term budgets and avoiding costly mistakes that delay start dates or result in noncompliance.

## OUR SERVICES:

- Air Compliance, Reporting and Auditing
- Air Dispersion Modeling
- Air Permitting and Support (NNSR, PSD, MSS, Title V, Major Source Construction, Minor Source Permitting)
- Air Quality Applicability Determinations (State, NSPS, NESHAP)
- Annual Emission Inventories
- Greenhouse Gas Reporting (GHG)
- Leak Detection and Repair (LDAR)
- Optical Gas Imaging (OGI/QOGI)
- Review and Auditing (Method 21)

# WASTE MANAGEMENT

Effective waste management is crucial for ecologically and economically sound business practices, helping to prevent adverse effects on human health and the environment.

Altamira's extensive experience in the waste industry, along with our strong relationships with state and federal agencies, enables us to provide expert waste consulting services. We stay current with regulatory requirements, making waste management consulting effortless for our customers. We assist in planning and managing waste operations, including handling, permitting and reporting, allowing you to focus on your business while we help you control and track related costs.

## OUR SERVICES:

- Certification of Tank Systems and Unit Closures
- Hazardous Waste Management
- RCRA Permitting and Support
- Treatment, Storage and Disposal Facility (TSDF) Audits
- Waste Characterization
- Waste Compliance Reporting
- Waste Management and Disposal
- Waste Sampling

# STORMWATER & WASTEWATER

Stormwater management is an important part of a company's environmental stewardship. Stormwater runoff can carry pollutants from storage, process or transfer areas into local watersheds through a variety of pathways. Unmanaged stormwater can cause downstream flooding, stream bank erosion, increased turbidity, habitat destruction, combined storm and sanitary sewer system overflows, infrastructure damage and contaminated streams, rivers and coastal water.

Our water experts stay actively engaged with the regulatory community to ensure Altamira is consistently updated on permit renewals, general permits and all stormwater-related news.

## OUR SERVICES:

- Beneficial Land Use Permits
- Construction Stormwater Permits and Plans
- Discharge Monitoring Reports (DMR)
- Industrial Wastewater Permits
- Permitting & Support (Federal and local)
- POTW Discharge Permits
- Stormwater Pollution Prevention Plans (SWPPP)
- Stormwater Sample Collections and Inspections
- Wastewater Sampling

# ENVIRONMENTAL COMPLIANCE

Cost-effective management of environmental issues is critical to sustainable business success. Failing to manage these issues can expose businesses to financial liability and can damage corporate reputation, potentially eroding shareholder value. Improper mitigation of these risks can also impact operating budgets and project schedules.

Altamira's streamlined permitting and design processes are based on a methodical approach to optimally support your environmental compliance needs for both capital and ongoing projects.

## OUR SERVICES:

- Compliance and Management System Audits
- Compliance Program Development and Management
- Compliance Training
- Due Diligence
- Environmental Compliance Gap Analyses
- Environmental Liability Evaluations & Assessments
- Facility Audit Preparation
- Jurisdictional Determination
- Phase I Environmental Site Assessments
- Phase II Investigations
